ABOUT
GOLFING THE WORLD

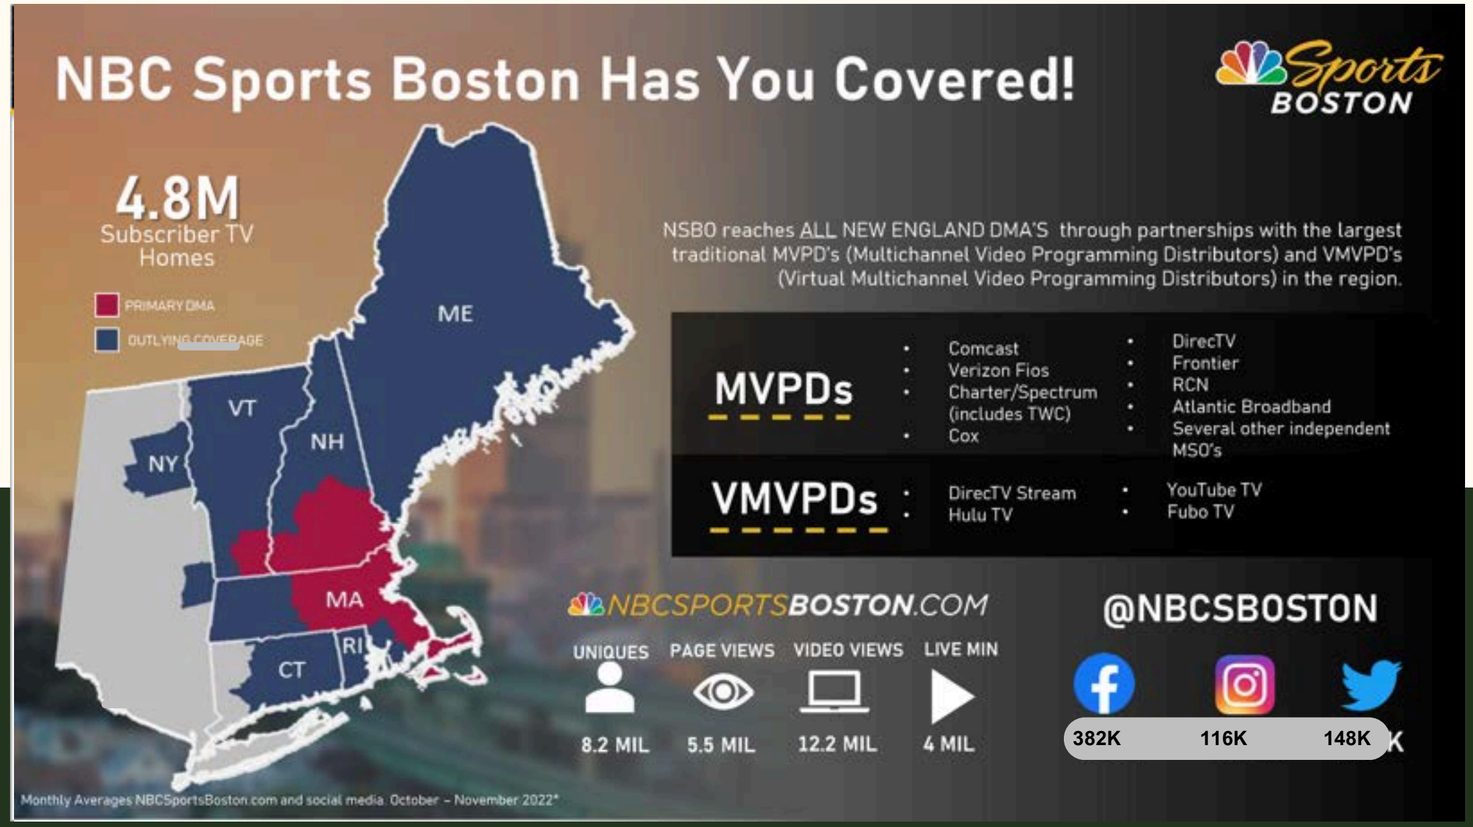

BCN Productions has been showcasing domestic and international golf since 1998 in our award winning travel series Golfing The World (GTW).

GTW is a golf and travel broadcast series and has featured more than 200 public, municipal, and private courses. This year, we are pleased to announce our **30th broadcast season!**

The secret behind our success is going an extra step beyond golf. We go *Out of Bounds* at each destination to find the cultural heartbeat behind the people who run and represent each course and destination.

In addition to covering courses in multiple US regions, each season we introduce our viewers to courses around the world: Ireland, Mexico, the Caribbean, Canada, Scotland, Portugal, Morocco, and more!

We have become experts at finding and highlighting what makes your course desirable to local clientele and destination golfers alike.
